Disclaimer

This presentation is based on the consolidated financial statements of Zenith Bank Plc, a company incorporated in Nigeria on 30 May 1990, and its subsidiaries (hereinafter collectively referred to as "the Group"). The financial statements are prepared in accordance with the International Financial Reporting Standard (IFRS), and the going concern principle under the historical cost convention as modified by the measurement of certain financial instruments held at fair value.

The preparation of financial statements in accordance with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and disclosures at the date of the financial statements. Although these estimates are based on the Directors' best knowledge of current events and actions, actual results may differ from those estimates.

● GDP Growth:

- The GDP grew at the rate of 6.72% y/y in Q2 2013, up by 33 bps from 6.39% recorded in the corresponding quarter of the previous fiscal year. (2013 GDP Growth y/y: Q2 USA- 1.4%; Q2 UK – 1.4%; Q1 South Africa – 1.9%)
- The non-oil sector was the major driver of the growth recorded in Q2 2013.
- **Outlook for GDP growth for 2nd half of 2013 is expected to remain between 6.5% - 7%, as we begin to see the implementation of critical structural reforms.**

● Headline Inflation:

- Headline Inflation eased to 8.0% y/y in Sept'13 from 8.2% y/y recorded in Aug'13.
- The lower y/y change recorded was largely as a result of a slower rate of increase in food prices as the recent harvest season continues to constrain rising food prices
- **Inflation is expected to remain in the single digit region for the rest of the year**

● Oil Production & Price:

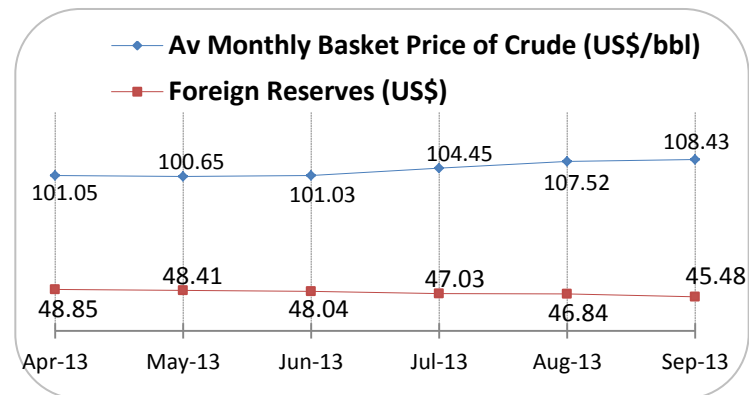

- OPEC Average Monthly Basket Price increased to \$108.73/bbl in Sept'13 from \$107.52 recorded in Aug'13.
- Nigerian output dropped to about 1.9mbpd in Q3'13 owing to incessant attacks on oil facilities, which often resulted to production shut ins.
- **Crude oil price is expected to remain above \$100/bbl for the rest of the year while Nigeria is expected to improve on its output from 2014 following the coming on stream of new oil fields.**

● Foreign Reserves:

- Nigeria experienced a decline in external reserve from \$48.04bn in Q2'13 to \$45.48bn in Q3'13. However, YoY experienced an increase of \$4.29bn or 10.4% from the level of \$41.19bn recorded at the end of September 2012
- The decline QoQ was largely driven by increased funding of the WDAS by CBN in order not to devalue the naira.
- **Outlook for foreign reserves remains mixed. Reserves is expected to expand in medium term but slowdown in global growth is likely to impact on commodity prices**

● Exchange Rate:

- The FX market remained stable in Q3 2013 due to increased inflows of forex and CBN's policy which helped to moderate the demand for foreign exchange.
- The exchange rate at the CBN Dutch Auction System segment of the market hovered between US\$/N155.7 and US\$/N156 in Q3 2013.

Our Investment Proposition

Strong earnings capacity and growth, Solid and liquid capital base, strengthened ERM practices, Good returns on investments and excellent customer services

- ❑ **Listing on London Exchange:** Zenith Bank has listed a non-capital raising GDR on the London Stock Exchange on 21st of March, 2013. The listing will broaden investor base by increasing accessibility for international investors, greater ability to use international debt/equity market for future capital raises and “best in class” corporate governance standards.
- ❑ **Credit Rating/Awards:** Standard and Poor’s reaffirmed Zenith Bank’s rating at BB-/Stable/B, being the highest rating awarded to any Nigerian bank and is in line with the country’s risk rating. World Finance adjudged Zenith bank as “Best Bank in Corporate Governance (2012)” in Nigeria while FTSE Global Markets named Zenith bank as one of the “20 Global Super Brands (2012)”.
- ❑ **A dominant player in Corporate Banking:** The Bank controls a significant share of the high end corporate clients in strategic sectors of the Nigerian economy. Through the use of its strong balance sheet and liquidity position as well as efficient trade finance products and services, the Bank is able to continuously grow and support business in this segment.
- ❑ **Increased Share of Middle Tier Market:** In order to bring down our cost of funds we are growing our retail market through deposit mobilization and various forms of electronic banking applications.
- ❑ **Strong Focus on Risk Management:** Despite the challenging business environment, the Bank has maintained its NPL ratio at 3.1% with a coverage ratio of above 82%. The management of the Bank will strive to bring NPL ratios to below 3%.
- ❑ **Good Dividend Payout:** Zenith Bank is recognized for consistently returning good dividends to its investors. The Bank paid a dividend of 95 kobo per share to its shareholders for FY11 and 160 kobo per share for FY12. We would continue to maintain high dividend payout.
- ❑ **Return On Equity:** Since the banking sector began recovery in 2009, Zenith Bank has steadily grown its ROAE. ROAE for FY12 was at 23.49%. We however expect some decline in ROAA and ROAE for 2013 due to tax consideration.

Comments

- ❑ *Strong Net Interest Margin (NIM) of 9.47% recorded in Q3 2013,; this was on the back of efficient balance sheet management (optimal resource allocation and assets pricing).*
- ❑ *Cost to Income Ratio declined QoQ but increased marginally YoY due to the downward review of COT and other bank tariffs, increase in AMCON charge and increase in staff cost..*
- ❑ *ROAE declined slightly from 20.96% to 19.67% YoY.*
- ❑ *PBT – N83.04bn, up 10.39% from N75.22n in Q3 2012 while PAT rose to N69.75bn from N64.06bn in H1 2012 – this represents a YOY growth of 8.88%.*

NPL Coverage Ratio

NPL Ratio

Our Risk Management Strategy

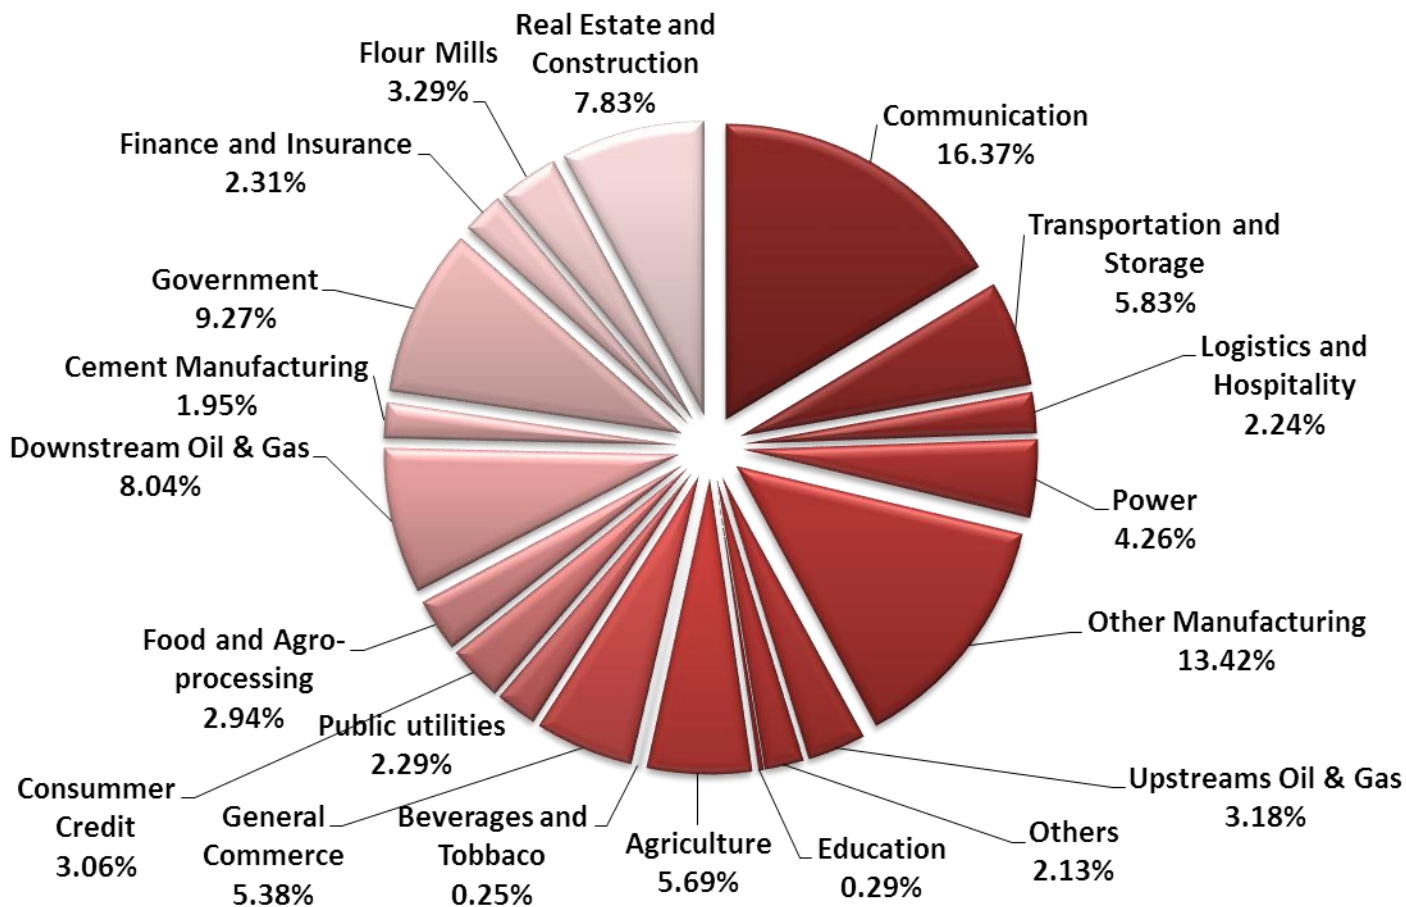

- The group adopts a complete and integrated approach to risk management that is driven from the Board level to the operational activities of the bank.
- Risk management is practiced as a collective responsibility coordinated by the risk control units and is properly segregated from the market facing units to assure independence.
- The process is governed by well defined policies and procedures that are subjected to continuous review and are clearly communicated across the group.
- There is a regular scan of the environment for threats and opportunities to improve industry knowledge and information that drives decision making.
- The group maintains a conservative approach to business and ensures an appropriate balance in its risk and reward objectives.
- Risk culture is continuously being entrenched through appropriate training and acculturation.

Focused risk management via portfolio diversification

Outlook and Prospects for FY2013

- ❑ **Agriculture:** The Federal government's resolve to boost the agricultural sector in the country would no doubt create quite a number of opportunities in the areas of funding, job creation and indeed food security to Africa's most populous nation. Various Funding Schemes to ensure that the country's economy is diversified have been put in place. These include Commercial Agriculture Credit Scheme (CACCS) that has 159 projects and Nigeria Incentive-Based Risk Sharing for Agricultural Lending (NIRSAL). Others are Seed and Fertilizer Scheme launched for banks to lend at a subsidized rate to local farmers and the value chain for the production of fertilizer. The Group would continue to play a major role in this sector to support the various government's projects aimed at boosting our economy.
- ❑ **Power and Infrastructure:** The Nigerian government has sold major power assets in the country via auction. The 25% of the bid price was paid by preferred bidders in March 2013 while the 75% balance was also paid in August 2013. As we begin to see the inflow of a large volume of private sector investments through the creation of new power generation and distribution entities and the subsequent development of a competitive electricity market, Zenith Bank is strategically positioned to take advantage of any emerging business opportunities in the country's power sector.
- ❑ **Mobile Banking:** In a bid to encourage and promote person-to-person payments and leverage on mobile phone channels as a means of payments, the CBN has given out licences to operators in the country. Zenith Bank Plc has already taken advantage of this initiative as we have received our mobile banking licence and has since launched our mobile banking services.
- ❑ **Investments in Technology and Product Innovations:** The Group has over the years become synonymous with the use of ICT in banking and general innovation in the Nigerian banking industry. We have renewed our commitment in ensuring that all our activities are anchored on the e-platform and providing service delivery through the electronic media to all customers irrespective of place, time and distance.
- ❑ **Cash-lite Project of CBN:** The cash-lite project which was first implemented in Lagos has also been extended to some other states which include Abia, Anambra, Kano, Rivers and FCT. Zenith Bank Plc has efficiently deployed a wide range of banking products that provides resourceful and robust financial services to its customers. It has launched mainly e-Banking products (Point of Sales Terminals, ATMs etc) geared towards meeting the changing needs of its customers in the light of the recently introduced and evolving cashless society policies being championed by the Central Bank of Nigeria (CBN) and fully supported by the banking community in the country.

Outlook and Prospects for FY2013

- ❑ **Representative Office:** We have officially opened a representative office in Beijing, the capital city of the Peoples Republic of China. The group is certain that reasonable contributions would be realized from this Office considering the various emerging business opportunities in China.
- ❑ **Customer Services:** At the center of the Group's pursuit of excellent customer service, we would continue to focus on strengthening our relationship management in a bid to surpass stakeholders' expectations.
- ❑ **Best Practices:** With the listing on the London Stock Exchange, the Group would continue to uphold "best in class" corporate governance and practices in all segments of our business.
- ❑ **Deposit Base:** Our drive for low cost and appropriately mixed deposit base to fund our credit and money market transactions would continue in FY2013. We are committed to be a dominant player in the money market space to drive up income and profitability going forward.
- ❑ **Risk Assets:** The Group would continue to seek opportunities to grow its risk assets while maintaining a low NPL ratio and sustaining our improved coverage ratio. We would continue to strive for the optimal protection of our shareholders' wealth through the continuous review and improvement of our risk management culture and processes.
